# Sto Ecoshapes™ Vintage

## Prefabricated Brick Shapes

### Facades

Sto Ecoshapes™ Vintage are custom-made prefabricated brick shapes that can create unique designs. Achieve the authentic look of brick in any color and texture you desire. Lightweight, flexible, easy to apply and durable, Sto Ecoshapes™ Vintage can be used in a variety of engineered wall cladding systems.

## Flexible, lightweight and durable; the perfect combination for functional and decorative facade design.

**Sto Ecoshapes Vintage is a highly customizable and versatile cladding that can be used in a variety of wall systems in both new and existing construction.**

Whether designing a building using a rainscreen cladding, EIFS and/or stucco system, Sto Ecoshapes Vintage is the ideal solution when the project calls for either a traditional or customized “classic” brick look. The product is easily applied at the jobsite, but is also suitable for use in offsite construction - serving as a finishing component in the creation of manufactured pre-fabricated panels such as those from Sto Panel Technology®. Sto Ecoshapes Vintage is ideal for restoration; colors and surface textures can be matched to existing facade designs or used to realize individual creative concepts.

There are nearly endless possibilities for customized design. By using Sto Ecoshapes Vintage together with StoTherm® ci, it is possible to combine thermal insulation with the appearance of a traditional brick facade and add design accents to any building.

### Sto Ecoshapes Vintage at a glance

- Beautiful natural brick appearance
- Proven performance with over 20 years of project use
- Project-specific colors, patterns and textures

# Transform any facade with Sto Ecoshapes Vintage

## The beauty of brick without the hassle

Made from high-quality raw materials, Sto Ecoshapes Vintage will transform your facade into a stunning, one-of-a-kind design. The hand-finished, pre-fabricated shapes can be tailored to match your requirements for color, size and texture, offering virtually unlimited design possibilities.

Bonding instead of bricklaying: the extremely lightweight Sto Ecoshapes Vintage elements are not laid like bricks, but are instead bonded to the substrate. This opens up a diverse range of design options - from recreating the appearance of brickwork to originating unique artistic designs. This versatile and highly expressive building material is compelling because of its natural characteristics and timeless appeal.

Using Sto's various engineered wall systems behind the cladding(s) will ensure the compatibility and continuity of all the building envelope's control layers (such as air/water/vapor/thermal) without any limit to the aesthetics of the structure.

### All benefits at a glance

- A lasting finish: lightweight and durable
- Flexible
- Minimal maintenance
- Greatly reduces the risk of efflorescence
- Seamless facade design
- Maximum impact resistance and special protection against weathering
- Easy to install
- Precision fit using lintel and corner shapes
- Expert advice on color designs and overall concepts from Sto Studio
- Nearly unlimited choice of colors, textures, formats with special orders upon request

### Sto Bonding & Pointing Mortar

A 100% acrylic-based mortar that will not effloresce. Available in nine standard colors.

## Special facade highlights

### Turn any building into something special

Sto Ecoshapes Vintage are available in the standard Modular, King, Queen, Utility, Estate, Premier Plus and metric Norman sizes. But other sizes can also be offered.

Preformed Corner pieces and lintels matching the texture and color of the flat pieces are also available. Sto Ecoshapes Vintage brick shapes are also easy to cut, making them especially user friendly (no dust) and adaptable to any design.

## Reference project: Various sizes and patterns for a unique lightweight brick look

These new homes at Groene Linten, Haarlem, NL demonstrates how a traditional brick finish can be achieved using improved modern technologies. Easily installed and custom designed, the architects were able to design the homes with the look they had in mind and easily achieve unique decorative patterns on the walls. Lightweight and flexible, with virtually no limits on colors, Sto Ecoshapes Vintage is ideal to design one-of-a-kind projects.

Combined with StoTherm® ci system, these homes offer not only a beautiful aesthetics but also low utility bills thanks to the exterior continuous insulation.
